EDUCATION

Allama Iqbal Open University

2022 – 2026

BS Computer Science | GPA: 3.7

Islamabad, PK

- Relevant Coursework: Artificial Intelligence, Machine Learning, Deep Learning, Neural Networks (ANN), Natural Language Processing (NLP), Software Engineering, Data Structures & Algorithms

EXPERIENCE

Web Development Intern

Jan 2026 – Mar 2026

Vectra Play Pvt Ltd

Islamabad, PK

- Developed and maintained web applications using HTML, CSS, and JavaScript as part of the core development team
- Contributed to ongoing client projects, delivering clean and responsive front-end implementations on schedule
- Collaborated with senior developers, took feedback constructively, and improved code quality throughout the internship

Web Development Intern

Jan 2026 – Apr 2026

Sabri Deutsche Schule

Islamabad, PK

- Applied front-end and back-end web development skills across multiple internal projects for the organization
- Demonstrated strong dedication and ability to work independently as well as collaboratively within a team environment
- Completed 3-month internship with satisfactory performance, showing punctuality and eagerness to grow technically

PROJECTS

AI Resume Tailor Agent | Flowise, Groq LLM, Prompt Engineering

2025

- Built an AI agent that reads a CV and job description, then rewrites the CV with ATS-optimized keywords automatically
- Agent generates a tailored cover letter and LinkedIn summary in a single execution using Groq LLM + Flowise workflow
- Deployed with a custom web UI — live at shahiryar.me | GitHub: github.com/MuhammadShahiryarSiddique

Restaurant AI Assistant | Flowise, Groq LLM, RAG, HuggingFace

2025

- Developed a 24/7 AI chatbot for restaurants that answers menu queries, opening hours, and reservation questions automatically
- Implemented RAG architecture with In-Memory Vector Store and HuggingFace Embeddings for accurate, context-aware responses
- Deployable as a web widget on any restaurant website — reduces staff workload and response time to zero

Document Q&A; Agent | Flowise, LangChain, RAG, Vector Store

2025

- Built a RAG-based AI agent that lets businesses upload documents and instantly get accurate answers from their content
- Integrated vector search with conversational memory for multi-turn Q&A; with cited, context-aware responses

SKILLS

AI & Automation: Flowise, LangChain, n8n, Zapier, Groq LLM, HuggingFace, RAG, Prompt Engineering, Vector Databases

Web Development: HTML, CSS, JavaScript, Responsive Design, Front-End Development

Programming: Python (Basic), SQL

Tools & Platforms: GitHub, VS Code, Cursor AI, Flowise Cloud, Namecheap, GitHub Pages

Languages: Urdu (Native), English (Fluent)

CERTIFICATIONS

- Web Development Internship — Vectra Play Pvt Ltd (Jan 2026 – Mar 2026)
- Web Development Internship — Sabri Deutsche Schule (Jan 2026 – Apr 2026)
